Washington, June 23.—(AP)—The house rivers and harbors bill progressed today to the senate floor where stiff opposition awaits at least two of its projects—the Illinois river improvement and government purchase of the Cape Cod canal.

Although Senator Howell, republican, Nebraska, has announced that he will oppose the Cape Cod purchase, and Senators Willis, Ohio, and Cawens, Michigan, republicans, have been leading the Great Lakes fight against the Illinois project, there was little or no opposition today in the commerce committee to reporting the en-

tire bill, involving authorizations totaling approximately \$50,500,000. The senate committee added the following projects:

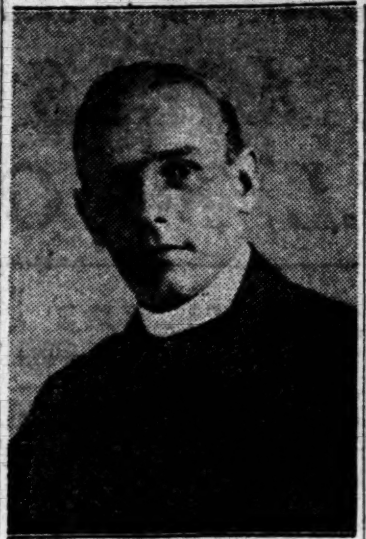

Hackensack river, New Jersey, improvement, \$1,655,000; intercoastal waterway from Beaufort Inlet, North Carolina, to the Cape Fear river, \$5,000,000; Galveston channel, Texas, \$621,000; power, flood control and irrigation surveys through the country, \$6,500,000; Little Calicut bayou, Louisiana, improvement, \$85,000.

However, the committee definitely fixed \$12,000,000 as the sum that might be expended on improving the Missouri between Kansas City and Sioux City, only in such manner that the improvements might form integral parts of a six-foot navigation channel there, if the secretary of war should deem such a channel advisable in the future.

In connection with the annual convention of the Associated Advertising Clubs of the World.

## Use of Sulphur Urged in Fight On Cotton Flea

Washington, June 23.—(Special.)—Ravaging of cotton in Georgia by the cotton flea, which has appeared in the state this season for the first time, has been reported to the department of agriculture by Representatives Rutherford, of the sixth district, and Wright, of the fourth district.

Experts of the bureau of entomology of the department have informed the Georgia congressmen that the pest can be destroyed by spraying the cotton with common sulphur, using 67 pounds to the acre. The cotton infested should be sprayed every five days until the flea is destroyed.

The bureau of entomology had experience with the cotton flea in Texas several years ago. As far as is known this is the first time it has appeared in Georgia.

Wright said considerable damage had been done in his district, and Rutherford said that in three counties of his district every field was infested by the pest. The flea sucks the cotton so that the squares can't form.

Rutherford informed every bank in his district and the county demonstration agents of the remedy suggested by the department of agriculture. He received a wire today asking if lead arsenate, which is employed against the boll weevil, could be used, and the department experts informed him that sulphur should be used.

The cotton flea, the department said, usually appears between June 20 and the middle of July.

## NORBECK PENSION MEASURE PASSED

Washington, June 23.—(AP)—The Norbeck bill increasing the pensions of veterans of the civil and Mexican wars and their widows and widows of veterans of the war of 1812, was passed today by the senate and sent to the house.

Under an amendment by Senator King, democrat, Utah, which was adopted, the minimum monthly pension for any veteran of 90 days service in the civil war or 60 days service in the Mexican war, would be \$85 instead of the \$72 provided in the measure as originally drawn. Totally helpless or blind veterans will receive \$90 monthly.

Pensions for widows of veterans of the civil and Mexican wars would be raised to \$50 monthly, as would payment to all army nurses of the civil war whose names now are on the pension bill.

Senator King said that his amendment would entail an additional annual expenditure of \$16,000,000, while the bill originally drawn would have added \$30,000,000 to the yearly payments.

The new cabinet is now a union of parties, but is made up largely of members of the former Briand cabinet plus the new finance minister and several men suggested by him. Premier Briand originally had hoped to bring about a shift from the left to the center, that is from radical socialism toward moderate liberalism.

Parliamentary experts, however, predict that the new ministry will rally a majority sufficient to put through legislation necessary to support the vigorous policy of retrenchment which the new finance minister has announced.

**Ratification Favored.**  
The attitude of the new government toward the Washington debt settlement is a matter that remains to be seen. Premier Briand and some of his colleagues, holding over from the preceding cabinet, are in favor of ratification. M. Caillaux is understood to have been opposed to the accord thus far because of the absence of a safeguard clause, which would make French payments depend to a certain extent on the German reparations. It is affirmed in an authoritative source, however, that M. Caillaux did not raise this question before accepting his new post.

Former President Poincaré, in preliminary discussion to the drawing up of Premier Briand's second slate, was opposed to ratification. The premier pointed out that if stabilization of the franc was to be a part of the new government's program, ratification of the Washington debt would be necessary. It is the opinion of friends of the new government that M. Caillaux will come to the same viewpoint when the question is put whether to ratify the agreement or not.

In any case it is regarded as certain that the government will avoid bringing the question to such a point that rejection would be possible at present. If early ratification is not considered advisable or possible, the policy of the government will be to delay action until the summer vacation.

The new cabinet is constituted as follows:

Premier and foreign minister—Aristide Briand; finance—Joseph Caillaux; justice—M. Laval; marine—Leygues; war—General Guillaumat; commerce—M. Chapsal; agriculture—M. Bimet; colonies—M. Perrier; interior—M. Durand; education—Professor Bertrand Nogaro; public works—M. Daniel-Vincent; labor—M. Durrain; pensions—M. Jourdain.

Asked regarding his future plans, Briand said that he had no time to think of the future. "I have not decided whether or not I shall go to the south pole," he said, "but certainly the American flag should be planted there."

It had been planned to take the polar pier to Washington in a naval plane Wednesday afternoon, but rain caused cancellation of this item of his itinerary and he left on the train. He will return to New York Friday for the first of several speeches he is scheduled to make here.

**RICHMOND PLANS BIG BYRD RECEPTION.**  
Richmond, Va., June 23.—(AP)—The reception accorded Lieutenant Commander Richard E. Byrd elsewhere in the country will be met in comparison to that which will greet him tomorrow night when he returns to his home and to the city founded by one of his ancestors.

All Richmond as well as a large portion of Virginia will unite in acclaiming the hero. "Richmond is an outstanding hero of the day. As he steps from the train at 6:25 o'clock great throngs will flock to get a glimpse at the first man to view the top of the earth from an airplane and to shout their homage and admiration at the matchless courage and intrepidity of the man who made such an epochal feat possible.

## CAILLAUX CENTER OF NEW CABINET

Paris, June 23.—(AP)—Aristide Briand, veteran French political leader, today brought into being his tenth ministry in an effort to solve France's financial difficulties.

With the formation of the new cabinet came the appearance into the political limelight again of Joseph Caillaux, long a stormy petrel of French politics. M. Caillaux, who was the premier of France in the days before the world war and who held the ministry of finance only recently, again has taken over the finance portfolio.

The appearance of M. Caillaux again as minister of finance is felt to be an indication that he has won back the prestige which he lost at the radical convention at Nice, just after he had returned from Washington, where he engaged in his unsuccessful efforts to settle the French debt to the United States.

**Caillaux's Prestige.**  
M. Caillaux's prestige is further increased by the fact that he gave substantial aid in forming the new ministry after Premier Briand's first attempt had been thwarted by former Premier Herriot's refusal to enter the cabinet and his second had been spoiled by former Premier Painlevé's withdrawal this morning.

Much comment has been occasioned by the fact that M. Painlevé, who forced M. Caillaux out of his cabinet after the Nice convention, is missing from the government for the first time in 1925. M. Painlevé was minister of war in the ninth Briand ministry, which resigned recently.

The new cabinet is now a union of parties, but is made up largely of members of the former Briand cabinet plus the new finance minister and several men suggested by him. Premier Briand originally had hoped to bring about a shift from the left to the center, that is from radical socialism toward moderate liberalism.

Parliamentary experts, however, predict that the new ministry will rally a majority sufficient to put through legislation necessary to support the vigorous policy of retrenchment which the new finance minister has announced.

Lieutenant Commander Richard Evelyn Byrd, your record as an officer and as a man is illustrious.

The explorer and his pilot were given an enthusiastic ovation by the six thousand people who packed the municipal auditorium when President Coolidge presented the medals Wednesday night. Every seat was taken and many stood at the doors in vain for admittance.

Secretary of the Navy Wilbur paid tribute to Mrs. Byrd as "that bravest of women who asked her to stand up. She arose, smiling and blushing, from her place in the audience and the crowd applauded.

In a graphic way, the explorer described his feelings on his jump to the pole, saying that he got a great thrill when the plane reached the polar ice cap.

"From then on until the end of the trip, I had the busiest time of my life," he declared.

Byrd spent the night at the Willard hotel, occupying the suite used several years ago by Richard Byrd and his pilot, Harold Gatty, when they flew over the pole a few days after Byrd died. At that time Amundsen was working on plans to fly over the North Pole.

Byrd will leave Thursday for his home in Richmond, Va., to be welcomed by his childhood friends and to rest before turning to active duty with the navy.

**BYRD WELCOMED BY NEW YORK CITY**  
New York, June 23.—Lieutenant Commander Richard E. Byrd, a thin, weather-beaten man of the American navy, came home from his historic venture Wednesday to a hero's welcome.

Declaring that "aviation has pulled the teeth of the arctic," Byrd, who, with Floyd O. Bennett as pilot, made the first flight over the pole, told on his arrival here of what might be expected from aviation in making the people of the world acquainted with the polar regions.

He predicted that the day would come when passenger planes would fly from Spitzbergen across the top of the world, and that the day would come when the modern Pullman trains, and then he declared that the American flag should be planted at the south pole.

Byrd and Bennett were taken into the arms of New York from the moment their boat, the *Chatterbox*, which carried them here from Spitzbergen, docked, until they occupied places of honor in a parade through the city, had been luncheon guests at the New York Adlon Hotel and had left for further acclaim in Washington, D. C.

The multitude which sought to welcome Byrd and Bennett when they arrived in the midst of the crowds were Mrs. Richard E. Byrd, mother of the flight hero, his wife, and his young son, Richard E. Byrd, the third. Mrs. Bennett was also among those who welcomed the aviators.

Byrd is expected to make a number of speeches during his stay in New York. He is expected to make a number of speeches during his stay in New York.

**TAX REDUCTION ASKED BY SOLON**  
Continued from Page One.

The revenue act of 1926 still further reduced all taxes except those on corporations, and in the hearings before the committee when the suggestion was made that the corporations were entitled to some relief, the treasury department opposed it on the ground that the revenue needs of the government would not authorize it.

It is now apparent that for the fiscal year 1927 the revenue of \$330,000,000 and it is estimated by the treasury that for the fiscal year 1927, there will be a surplus of \$185,000,000. When the federal government ever to criticize the treasury department relative to its estimates, for I am sure they are made with all possible care, and it is a fact that, during the last five years, the revenues of the government have exceeded the estimates of the treasury department.

In the case of the \$1,800,000,000, it is estimated that every 1 cent of the tax on corporations would yield approximately \$80,000,000 to the government, so, if this reduction of 3 1/2 per cent is granted corporations, the treasury will lose (not allow for increased revenue on account of stimulation of business) approximately \$300,000,000. The surplus will easily take care of this.

"In equity and justice, while all other taxes are being reduced, I feel that the corporation taxes should be relieved as the corporations are owned by individuals, many of them widows and orphans."

## DRY MODIFICATION BILLS POSTPONED BY SENATE BODY

Washington, June 23.—(AP)—Nine bills and joint resolutions which seek to liberalize the eighteenth amendment or the Volstead act were reported adversely today to the senate from the judiciary committee with recommendations that they be postponed indefinitely.

They included the Bruce amendment to the eighteenth amendment which would provide for state local option, the Edge proposal for a national referendum on prohibition and various measures to define liquor as "intoxicant in fact" and raise the legal alcoholic content of beer to four per cent.

war, in resolutions read and adopted at the convention Tuesday afternoon.

**Resolution On Kennecott.**  
A resolution, introduced from the floor of the convention on Wednesday, endorsing the proposed government memorial park at Kennecott mountain, for which a preliminary survey is to be made this week, was referred to the resolutions committee.

Three other resolutions referred to the committee were all introduced by the Arizona delegation. The first asked a separate committee on veterans' affairs to be appointed by the senate, similar to a committee now existing in the house. The second proposed that the director of the Veterans' bureau be appointed for a term of four years, stating that such action "would be conducive to a better morale among beneficiaries and employees of the bureau, if the director was free from all political influence."

The third resolution asked that Charles Forbes, former director of the Veterans' bureau, "who has been convicted of a most contemptible crime," and who is now serving a sentence at Leavenworth, Kansas, federal penitentiary, be given no consideration for parole or pardon.

## Solon Requests Senate To Refuse W. S. Vare Seat

BY RAYMOND CLAPPER.  
Washington, June 23.—A resolution intended to prevent William S. Vare from taking his seat as a senator from Pennsylvania if he is elected next fall, was offered in the senate Wednesday as an outgrowth of the disclosures made by the senate campaign fund investigating committee.

The resolution was offered by Senator Neely, West Virginia, democrat. "The senate should give notice to the republican party of Pennsylvania that it will not look with favor on the seating of any man who has spent more than \$800,000 in his primary campaign," Neely said. His resolution declared that a senator-elect shall be disqualified from holding his seat if more than \$10,000 has been spent by himself or for him either in a primary or regular election, not including personal, traveling, stationery and advertising expense.

Some such method as Neely proposes offers the only way of getting at excessive expenditures in nomination of senatorial and congressional candidates. The supreme court has held that congress cannot regulate elections through the federal election laws held for senatorial and congressional offices. Under the constitution each house of congress is the judge of the qualifications of its members. Neely proposes that the senate shall automatically hold anyone disqualified who spends more than \$10,000 either to be nominated or to be elected.

**Wheeler Questioned.**  
One more disclosure was added Wednesday to the imposing series uncovered by the senate campaign fund investigating committee. Wayne B. Wheeler, general counsel of the Anti-Saloon league, admitted to the committee that his and cooperating organizations spent approximately \$350,000 in the long campaign to write prohibition into the federal constitution. In the last two or three years leading up to the climax of the fight in 1919, the expenditure of the organized dregs was about \$2,500,000 a year.

Wheeler was asked how much money the Pennsylvania branch of the Anti-Saloon league spent since prohibition became a law. He reported that in 1920 \$187,742 was spent; in 1921, \$105,781; in 1922, \$100,000; in 1923, \$129,140; in 1924, \$117,722; in 1925, \$101,208; 1926 figures unavailable. These figures do not include expenditures for political campaigns. They represent only routine running outlays.

"You had organizations as large and vigorous as this in other states did you?" asked Chairman James A. Reed.

"I suppose so, in states like Ohio, Illinois, New York and a few states of that kind," replied Wheeler.

These Anti-Saloon league expenditures in Pennsylvania do not appear to cover the total cost of keeping the homes fires dry in that great commonwealth for the president of the Pennsylvania W. C. T. U. testified Tuesday that her organization raised \$130,000 to help Governor Pritchett in his fight to enforce prohibition. They set up an office in the statehouse, paid detectives and attorneys.

**REED ASKS EXPENSE FUND.**  
Although Senator Reed has almost concluded his investigation of the Pennsylvania primary, he expects to go into other states in an equally exhaustive manner as is indicated by the fact that Wednesday he asked the senate for an expense fund of \$50,000 instead of \$10,000 as originally requested. The resolution embodying this request was referred to the committee on audit and control. Some

debate may be provoked when it comes up in the senate, because of Reed's investigation of dry activities. He insists that this information is pertinent to the general picture of campaign expenditures which his large committee has been directed to obtain.

Other Anti-Saloon league officials probably will be heard within a day or two regarding their charge that Pennsylvania brewers raised a large fund in the primary. Reed has endeavored to trace down some cash contributions which bore earmarks of having been made by dummy contributors but he has not been able to verify the suspicion that some of this money came from brewing interests.

But even if Reed gets no farther in his investigation of politics as practiced in Pennsylvania, the testimony he has gathered will stand as one of the most amazing pictures of vote-buying and political manipulation that has been revealed since the Tweed ring was exposed.

In that race to elect a senator, a governor and a slate of minor officers, expenditure of about \$3,000,000 already has been confessed and the committee never will know what large sums escaped its eye. This is more than the democrats spent in their whole presidential campaign in 1924.

**Forgery Admitted.**  
One forgery has been admitted in the confessed substitution of the signature of President Green of the A. F. of L. to a letter endorsing John S. Fisher, Mellon candidate for governor. The Mellon family personally admitted spending approximately \$100,000 to elect the Pepper-Fisher ticket. Fisher gave \$45,000 toward his own unsuccessful attempt for the senatorial nomination and his family's contribution made up a large part of the \$185,000 total put up by Mellon.

## State's Rebuttal In Shirley Case Brought to End

Birmingham Ala., June 23.—(AP)—Marked by adjournment early in the afternoon, the state today closed its rebuttal in the trial of Byron Shirley, accused of the murder of John D. Jones, state law enforcement officer, on the night of May 25. The state closed immediately after chemists reported the result of their examination of the clothes worn by Jones at the time of the slaying.

The chemists reported that marks on Jones' garments were powder burns.

During the morning session the state offered witnesses in the continued effort to break down the testimony of Miss Mary Simmons, defense witness, who swore that she was in the automobile with Shirley and Dewey Barrett, another deputy sheriff, also

charged with the murder of Jones. Miss Minnie Dorough told the court that Miss Simmons said on the day after the slaying that she and a young man witnessed the shooting of Jones while seated in an automobile. This testimony was similar to that offered by Mrs. Cora Otis Simmons, a cousin, when the state closed the defense placed two witnesses on the stand and offered a statement by Barrett, in rebuttal.

## 1,000 Klansmen Parade in Kansas After Court Row

Emporia, Kans., June 23.—(AP)—More than 1,000 Ku Klux Klansmen from this section of Kansas paraded in masks and robes here tonight protected from interference by city and state authorities by two court decisions.

The procession marched silently down the main street. There were no disorders.

The city was unlocked to the klansmen under decision handed down in district court by Judge I. T. Richardson, who held that klans parades violate no law and that the state has no authority to interfere with them.

Judge Richardson denied a petition for an injunction to stop the parade which was filed by County Attorney S. S. Spencer, and restrained the city from enforcing its ordinance requiring the klansmen to register before parading and to wear tags so that the police could identify each masked marcher.

The court held that the city ordinance invaded the rights of citizens and declared that the klans masks do not tend to incite riots.

In his decision, Judge Richardson held that an injunction obtained by the state in district court at Valley Falls, Kans., prohibiting parades of masked and robed klansmen did not apply to the entire state.

## JAMES MILLS OUT AGAINST J. J. BROWN

Continued from First Page.

late Paul B. Trammell, and Calvin Parker, of Waycross, who will oppose George W. Lankford, of Toombs.

Judge Richard B. Russell qualified as a candidate for the United States senate, and issued a statement in which he declared he would run on an issue opposing the entry of the United States into a world court. League of Nations or other foreign alliance. He declared he would make public his platform at a later date.

Mr. Ennis, who had stated positively Tuesday night that he would be a candidate for governor, decided at the last moment to stay out. He had his check ready and his entrance statement, but told friends he had decided at the last moment not to make the race for governor in this primary.

Commissioner Brown, of the department of agriculture, declared as a candidate for re-nomination and declared that he would call a conference of friends to outline campaign plans.

Mr. Brown's resignation as head of the markets bureau Wednesday morning after Mr. Jackson had informed him he would support Mr. Mills in the race. Mr. Brown said he then asked Assistant Commissioner of Agriculture Fred T. Bridges how he stood on the question, and that Mr. Bridges announced his support of Mills. Mr. Brown then said he asked Mr. Bridges for his resignation.

Mr. Jackson told virtually the same version of the incident as Commissioner Brown. He said he informed Mr. Brown Wednesday morning that he would support Mr. Mills for the post and that Mr. Brown demanded his resignation. Mr. Jackson said he declined to resign. Mr. Bridges said Commissioner Brown's resignation after he had informed the commissioner that he would support Mr. Mills. Under the law creating the bureau of markets, Mr. Bridges holds his position at will and his resignation after he had informed the commissioner that he would support Mr. Mills.

Barrett Backs Mills. Mr. Mills, who will oppose Mr. Brown, is head of the Georgia farmers' union. He said he entered the race for commissioner after he had received a letter from Charles S. Barrett, president of the national farmers' union. Mr. Mills said he yielded to the request of Mr. Barrett and other friends throughout the state and qualified as a candidate.

"Mr. J. H. Mills," "Jenkinsburg, Ga."

"Why don't you get in and run for commissioner of agriculture. This state needs someone who will stay on the job, and if you will work as hard as that as you have at some other agricultural matters, you could put the agricultural department where it belongs."

"I wish I could see this grand old state, the one that has been so good to me, in the lead. Fraternally," (Signed) "C. S. BARRETT."

List of candidates for the various offices follows:

"Feeling that the people of this state who are opposed to the League of Nations, the world court, or any other creature or branch of the League of Nations, are entitled to have a candidate for the United States senate, I have decided to become a candidate for this exalted position. I deem this to be the outstanding and paramount issue before the people of America, not only those who are living today but vitally affecting generations yet unborn. I believe that I am well enough in the rank and file of the citizens of this state to be trusted when I say that in the event of my election I will oppose with every fiber of my being any alliance or combination with foreign powers which might to the slightest extent involve us with the affairs of Europe. In the near future I will issue a more detailed statement of the issues upon which I will pitch my campaign before the people of Georgia."

WOMAN NOT TO RUN FOR GOVERNOR. Augusta, Ga., June 23.—(AP)—Miss Lavonia Seals announced here today that she had decided not to become a candidate for governor. Miss Seals

## Swedish Prince Royally Greeted In Middle West

Chicago, June 23.—(AP)—The heir to the throne of Sweden, Crown Prince Gustaf Adolf, the Crown Princess Louise and their retinue were royally welcomed to the middle west today.

At Gary, city of sand and steel, the crown prince inspected the 1,000-acre plant of the Illinois Steel company and on his arrival in Chicago his first act was to place a huge wreath at the foot of the statue of Abraham Lincoln.

Greeted by Mayor Dever and a committee of prominent citizens, the prince and princess were almost crushed by the huge crowds desiring to shake hands with them.

Thousands more choked Michigan boulevard and surrounding Lincoln's monument in Lincoln park as the procession approached from the station, headed by 200 cavaliers from Fort Sheridan and a band of motorcycle police.

Guns along the lake front boomed a welcome as the royalty and their escorts swung into the boulevard.

The shouting died as the crown prince quietly laid the wreath at the foot of Lincoln statue and stood with head bowed for a moment.

Taken on a tour in a glass enclosed car, the prince watched the thick red-hot ingots pulled from the soaking pits and rolled into thin rails.

A workman at the wheel mill, for the benefit of the party, demonstrated his skill in handling, twisting and balancing a thousand-pound car wheel and was rewarded by a handshake from the prince.

Crisp, of Americus, the only candidate. T. M. Furlow, district executive committee chairman, stated early tonight that entries were filed with Secretary Greer at Oglethorpe but that he had not been advised of any except being filled there. The primary will be held September 8.

Congressman Crisp has served several terms in congress where he holds important committee assignments and he is regarded as likely to be chosen speaker of the national house of representatives in the event the democrats gain control of congress in the fall elections.

## EUCCHARISTIC MEET WILL CLOSE TODAY

Chicago, June 23.—The greatest religious drama ever enacted on American soil has swept into its final act. Nearly a million pilgrims from all parts of the world are converging on Mundelein, Ill., near here, where at sundown Thursday the International Eucharistic congress, of the Catholic church, reaches its climax in a glorious outdoor tribute to the Eucharistic King.

Modern methods of transportation sagged perceptibly under the burden of this pilgrimage which ends in a ceremony 19 centuries old.

All night the exodus from Chicago, and the influx into Mundelein continued. Nine paved highways carried their peak load of a thousand cars an hour and railroads were running trains out of the loop district as rapidly as they could be assembled from outlying yards.

Special Traffic Rules. Special rules governing traffic went into effect at 10 o'clock and a few hours before dawn the three lines into Mundelein were to inaugurate their schedule of a 10-noon train every two minutes.

Never had so many visitors been concentrated in so small an area. And never before had so many persons started for one point in so short a time.

Mundelein is the seat of St. Mary's-of-the-Lake seminary, nestled in the green-wooded hills of Lake county, 45 miles northwest of Chicago. It has been converted into a vast park of winding roads, flowered insignias and shrines. Here, following a eucharistic procession in which 750,000 pilgrims are expected to take part, a solemn benediction will be said and the 28th International Eucharistic congress will pass into history. John Cardinal Bonzano, personal representative of Pope Pius XI, will dismiss the kneeling multitudes by holding the holy eucharist high over his head and making with it the sign of the cross.

This ceremony will take place on a hill overlooking Lake St. Mary's. Cardinal Bonzano will stand on a high throne just outside the door of the seminary chapel and on each side of him will stand 11 princes of the Catholic hierarchy, each in a separate throne, over which is stretched a large decorated canopy fringed in the papal yellow.

The procession of pilgrims assembled before the chapel after completing a five-mile march through the wooded lanes of the seminary singing the praises of their faith. Officials of the congress estimate that it will take four hours for the procession to complete the circuit and that they will not return until sunset.

Cardinals Leave. The 12 cardinals taking part in the closing service left Chicago Wednesday on the train of scarlet coaches which brought the papal legate here from New York last week. They were given rooms at one of the seminary dormitories.

So far as the pilgrims are concerned, the crowds at Mundelein cannot be much worse than they were in Chicago during the first four days of the congress when four mass meetings at Soldier's Field stadium were attended by a total of 1,200,000 persons.

The Seminary park, however, is small at best for such a large gathering. If 750,000 persons are inside the gates there will be only 10 square feet of open space for each pilgrim.

The Chicago activities of the congress ended Wednesday afternoon when the last mass of incense was scattered under the cold arc of the 125-foot altar at Soldier's Field. It was the close of higher education day in which all the ceremonies were dedicated to students.

And when Cardinal Daugherty, of Philadelphia, pronounced the last

STATE PRESS MEN  
DELAY LOUISVILLE  
MEET UNTIL FALL

Monroe, Ga., June 23.—(Special.) The annual meeting of the Georgia Press association, which was to have been held at Louisville August 9-11, has been postponed until September 22-24, it was announced today by Ernest Camp, president.

This announcement was made following action of the board of managers. Previously the editors planned to meet here and go to Waynesboro for a banquet, proceeding to Asheville, N. C. It developed that accommodations would not be available at Grove Park Inn, Asheville, until September and owing to the accentuated beauty of the mountain foliage in autumn, the postponement was decided upon.

An interesting convention is in prospect at Louisville, which is one of the most historic towns in Georgia, being the former capital of the state, Mr. Camp announces.

BAPTIST HOSPITAL  
DRIVE NEARS END

The Atlanta campaign for the Greater Georgia Baptist hospital has entered the home stretch with 200 men and women working the remaining days of this week to reach the downtown prospects and bring the campaign to a successful conclusion.

Workers made encouraging reports Wednesday night and it is expected that today and Friday and Saturday will see increasing reports from all teams.

"We are very much encouraged by the response of the downtown canvass," said Dr. Arch C. Cree, superintendent of the hospital, in commenting on the progress of the work last night.

"We have been fully assured that the people of Atlanta appreciate the work of the institution and that they are glad to have this opportunity to put something into the hospital's enlargement program. We have just checked up on the patients served in the Georgia Baptist hospital during 1925 and we find that of the total number of 3,749 patients only 1,354 were Baptists, the remaining 2,395 being of other faiths or none at all. Our records also reveal the fact that a majority of the charity work was rendered to people not members of Baptist churches," he continued.

\$250,000 Sought.  
Baptists of Georgia have expended \$750,000 on the hospital and the people of Atlanta are now asked to give \$250,000 to its further enlargement so that it may more effectively serve the people of this city and neighboring communities.

It is estimated by Dr. Cree that the patients in the Georgia Baptist hospital from outside the city of Atlanta brought a half million dollars to the city in 1925. With the doubled capacity of the present building program, this amount of new money constantly brought to the city will steadily increase.

W. W. Orr, chairman of the big giving committee, reports a number of additional gifts of substantial sums. His committee is at work during the remainder of the week in an effort to raise not less than \$100,000 for the hospital.

Dr. E. E. George, director of the campaign, is at the campaign headquarters, 205 Palmer building, where he is ready to serve the workers at any hour of the day. Dr. George expresses his pleasure in the progress of the campaign to date and appeals to everyone who has agreed to work to put in at least four hours work the remaining days of the week.

**Block Urges Action.**  
"Atlanta can easily raise this \$250,000 for the hospital and I believe if the workers will get the appeal to the people they will receive the money," said Eugene R. Block, chairman of the campaign, last night.

The money which the people of Atlanta are giving will go into permanent equipment in the new unit of the hospital now nearing completion and in additional units, soon to be constructed.

It is the plan of the hospital to install the most modern equipment in the new building and this provides the people of Atlanta and the state the best advantages in hospital service.

Washington, June 23.—(P)—Presentation of the flag of the state of Wyoming to Postmaster General Nease today by Senators Warren and Kendrick and Representative Winter of that state, completes the post office department's collection of state flags with the exception of Kansas and Nevada.

The collection, considered the most extensive in the country, includes also the flags of the country's possessions, but lacks Samoa, the Philippines and the Virgin Islands. It was begun about 15 years ago.

Wyoming's flag was furnished by the first and second-class postmasters of that state through the efforts of William G. Haas, postmaster at Cheyenne.

**INDIAN SECRETARY  
ATTACKS UNION HEAD**

London, June 23.—(P)—The Earl of Birkenhead, secretary of state for India, in a speech in London, attacked A. J. Cook, secretary of the miners' federation, whom he accused of pursuing a policy aiming to destroy the coal mining industry, so that nationalization could be achieved and the mines bought at a "knockout price."

"I am determined, and my colleagues are equally determined," said Lord Birkenhead, "that if we are driven to the necessity by this attempt to blackmail society by men who declare they have a stranglehold on the vital cords of industry, we shall once again sorrowfully, but resolutely, give ourselves for a great struggle—we shall not permit the nation to be destroyed."

GENERAL J. V. CLINNIN  
ATTENDS D. A. V. MEET

Brigadier General John V. Clinnin, of Chicago, a veteran of three wars and the national rifle champion of the United States for 15 years, arrived in Atlanta Wednesday morning.

Resolutions urging passage of the rivers and harbors bill now pending in the United States senate were adopted Wednesday by the Atlanta Retail Merchants association.

George and Harris and Congressman Upshaw soliciting their support in the move and pointing out the advantages which will come to the entire state if the bill is passed.

The bill includes a provision for improvement of the Savannah harbor, in accordance with the war department engineers' recommendations, rendered after a survey of the entire Georgia coast. Should the bill be passed this harbor would be widened and deepened, increasing the capacity of the port, and, as resolutions of the Retail Merchants' association point out, "benefiting the entire state of Georgia and the southeast."

In addition to recommendations affecting Savannah harbor, the bill provides for survey by government engineers of the proposed improvement of Thunderbolt harbor, Darien harbor, Rattle cut, Jekyll and St. Simons' islands, with a view of improvement plans.

It is pointed out that improvement of all of these waterways is extremely vital to the future of Georgia's interior as well as coast towns. The merchants association also sent requests to the Georgia Manufacturers' association and the Atlanta Retail Dealers' association to take some action in urging passage of the bill during the present session of congress.

## Atlanta's Building Boom Aided by Avondale Sales

Indicative of the building boom which Atlanta and Fulton county is experiencing, it was announced Wednesday that building permits for the city of Atlanta for the first 22 days of this month hit the \$778,308 mark, only \$142,922 short of the entire month of June last year. This statement was issued on the heels of another by John H. Byrley, general manager of Avondale Estates, beautiful new suburban development, that residence lot sales in Avondale last week set a record with a total of \$82,500.

Atlanta building activities for the year thus far have passed the \$12,000,000 mark and have passed the entire year of 1921 by more than \$2,000,000, according to statistics compiled by A. O. McDaniel, assistant building inspector.

"A new era already has dawned for Atlanta and it is entering on a program of building, expansion and development which will compare favorably with any city in the entire country, and the great strides are founded on solid economic principles," Mr. McDaniel said. "The city is just coming into its own, and much greater things are in store for her."

The Avondale sales record, which was set last week, is tottering and threatens to fall this week before the onslaught of prospects, officials of the company stated Wednesday. Every indication points to another record this week.

Last week's achievements were said by leading real estate men to surpass any other residential development in this section of the country for a similar period and to point to a \$4,000,000 annual sale, which will equal any development in the entire south.

Sale of 34 lots was involved in last week's activities of the company, and did not include sales of a home on Dartmouth avenue by Charles H. Black—a place which was purchased 30 days before its completion. This figure would have pushed the week's total over the \$100,000 mark, it is said.

Keeping pace with sales activity, development along all lines was being pushed in Avondale, with the result of a constant enhancement of property values. Paving of seven miles of streets in the second unit by the Mendor Construction company, contractors, will begin June 28, with Lake Shore drive, the thoroughfare winding along the eastern bank of Avondale lake as the first artery to be paved.

Hundreds of Atlantans continued to inspect sites Wednesday, with the result that predictions of the new record were constantly made.

taking with them the bundle and suitcase. Their flight was noticed by a brakeman who gave the alarm.

The baggage car by that time had been attached to a Washington bound train. It was stopped at West Philadelphia and Wallace released from his bonds.

Three vaudeville performers died in auto accident.

Modesto, Calif., June 23.—(AP)—Three vaudeville performers were killed and three others seriously injured when an automobile in which they were driving from Stockton to Fresno, to fill an engagement, turned turtle on the highway one mile south of Modesto early today.

Harry Dodson, Springfield, Mo., who was the driver of the machine, died at a Modesto hospital.

The dead and injured were brought here by passing motorists.

F. B. Kincaid, the driver of the car, who is suffering from a fractured skull, believes a blowout caused the car to turn over.

## REPRIEVE SOUGHT FOR MRS. CALVERT

London, June 23.—(AP)—Unless an eleventh-hour reprieve is granted, Mrs. Louise Calvert will be hanged at 9 a. m. tomorrow at the Strangeways jail, Manchester. She was convicted of strangling her landlady, but has steadfastly avowed her innocence.

The opponents of capital punishment in Great Britain are deeply stirred over the case of this young Leeds woman—she is 23. She will be the first woman to be executed in England since 1923, when Mrs. Edith Thompson, convicted with F. Bywaters, paid the extreme penalty for complicity in her husband's murder.

Mrs. Calvert, being separated from her husband, resided at the home of Mrs. Lily Waterhouse, a widow, and robbery was alleged during the course of the trial as the motive for the crime.

Mrs. Calvert was arrested April 2 and sentenced to death May 7, but before sentence was passed she had appealed for a stay of execution on the ground that she was soon to be married.

The judge ordered a jury of matrons impaneled, which is the usual course in such cases, and the law shall not take the life of an unborn child.

The medical evidence, however, did not support her claim. Meanwhile six members of parliament had a motion placed on the order paper in the house of commons praying that the king "exercise his prerogative" for reprieve on the ground of expectancy of motherhood.

Sir William Joynson-Hicks, the home secretary, replied that there was no evidence to hear this out.

Mrs. Calvert's husband has been energetically circulating a petition for reprieve, headed by the appeal: "Pray all who oppose hanging a woman, or capital punishment, sign a petition to the home secretary."

The petition was signed by many thousands and presented by Mrs. Calvert's lawyer to the home secretary, who once more replied, regretting that, "after careful consideration of all the circumstances, he failed to discover any ground which would justify him in advising the king to interfere with the due course of the law."

JAYCEE CONVENTION OPENS IN FLORIDA

Jacksonville, Fla., June 23.—(AP)—With approximately 1,000 delegates in attendance the four-day seventh annual convention of the United States Junior Chamber of Commerce opened here today.

Officially opening the meeting a "get acquainted" luncheon was served at noon today and the delegates were welcomed to Florida and Jacksonville by Governor John W. Martin, Mayor John T. Alsop and B. D. Fincannon, president of the local chamber. E. Fred Johnson, Tulsa, Okla., president of the national organization, responded in behalf of the visitors.

This morning preliminary sessions of the national councilors league and of the board of directors were held. These, with the registration of delegates this morning and a short initial business session this afternoon at which committees were named and resolutions received, comprised the business of the day.

Tonight the delegates will be the guests of the local chamber at a private "showing" of the organization's minstrel performance.

The convention will get down to "brass tacks" tomorrow.

In the pre-convention bustle, Omaha, Neb., has stepped forth as the leading candidate for the 1927 convention.

Election of officers and choice of the city is scheduled for Saturday.

GREAT CONNOLLY CRASHES GATE AT CHURCH MEET

Chicago, June 23.—(AP)—"One Eye" Connolly has taken back his discarded gate crashing crown.

A few weeks ago "One Eye" announced his retirement as the world's champion gate crasher. He actually paid railroad fare to Chicago and for a few of the only times in his life he held tickets to fights and races, while he followed his new profession—peddling turf papers.

But the great crowds filing into the eucharistic ceremonies sounded a challenge to the retired champion.

Something stirred in his blood and moved him to stage a triumphant comeback.

It took him just five minutes to crash his way through gates into the front row at the soldiers' field services.

Aided by two burly policemen his time was cut to three minutes on the way out.

A sign on the back of his vivid blue coat announcing that he would "crash the gates of hell" was given as the cause of his ejection.

After his comeback at the congress, "One Eye" topped off his day by crashing his way into the ball game at the White Sox park.

BIG DAMAGE SUIT ADDS NEW CHAPTER IN OSAGE MURDERS

Pawhuska, Okla., June 23.—(AP)—Another chapter of the story of the Osage murders was written here today with the filing of a suit for \$50,000 damages against three of the alleged conspirators.

John Brookshire, of Bartlesville, asks that amount from W. K. Hale, John Ramsey and Ernest Burkhardt, as damages for the death of his wife, Nettie, who was killed in an explosion that wrecked the Fairfax home of W. E. Smith, March 10, 1923. A minor son also is named as a plaintiff.

Smith and his Osage Indian wife, Rita, also met death in the explosion. Mrs. Brookshire was a servant of the Smiths.

Burkhardt was sentenced to life imprisonment Monday after he pleaded guilty to aiding in the employment of an assassin to blow up the house. Hale and Ramsey are in jail here awaiting trial for the killing of Smith.

LAST SERVICES TODAY FOR JULIAN M. STARR

Funeral services for Julian M. Starr, 26, will be held this morning at 10 o'clock from Gordon Street Presbyterian church, the Rev. Harold Sheldahl, assisted by the Rev. W. M. Delavenne, officiating. Interment will be in West View cemetery.

Mr. Starr, who died at his residence, 408 West Ontario avenue, is survived by his wife, his parents, Mr. and Mrs. B. F. Starr, of Orlando, Fla., and two uncles, H. C. Fincher, of La Grange, and E. T. Fincher, of Windsor.

## Smuggled Letters Read at Sanity Trial of Scott

(By Leased Wire to The Constitution and The Chicago Tribune.) Chicago, June 23.—Russell T. Scott's latest sanity trial was given a dramatic opening in Judge Kavanaugh's court today when nine letters Scott had smuggled out of the asylum at Chester, Ill., were read. These letters, all indicating Scott is a clever schemer, may have an important bearing on the verdict of the jury. As the guard who turned them over to the state passed down from the witness stand, Scott snarled, "You lousy dirty..."

The letters show the workings of a shrewd brain and all indicate that in his bearing and attitude at his sanity hearing he is closely following "the lines laid down" by his attorney and that he made a special study of his fellow inmates and Chester to get tips on how an insane man should act. This, in great part, explains his actions in court. He slumps over a desk and appears indifferent to what is going on. He also has gashed pallor, but this may really be acquired by eating soap.

His letters show that he lied to his attorney, to his mother, to his wife, to everybody.

While his wife was bending every effort to raise money for his defense, he was plotting with another woman to accompany him to Europe as soon as he escaped from the asylum. This woman lives at Port Huron, Mich. A box of candy sent to him became broken in transit and revealed a bundle of hanksaws. He also was plotting with outsiders to smuggle revolvers in to him.

## YOUTH GETS LIFE IN LIQUOR MURDER

Pensacola, Fla., June 23.—(AP)—Jesse Odom, 19, today admitted he caused the death of Archie Alexander, 16, by giving the younger youth a drink of poisoned liquor because of his jealousy of Alexander. Odom pleaded guilty of second-degree murder in circuit court and was sentenced to life imprisonment. Witnesses who appeared testified that Odom was jealous of Alexander because of his apparent popularity with girls at the expense of Odom.

The defendant admitted his jealousy, but claimed the liquor was poisoned and the murder plot concocted by unnamed persons.

In sentencing Odom, Judge A. C. Campbell declared that only the plea offered by Odom prevented his going to the electric chair. "And," the judge said, "there is nothing to recommend you to the pardon board. Therefore, you must spend the rest of your natural life in the penal service of the state."

"In some cases where a plea of second-degree murder is offered, there may be some justification for offenses committed, or some excuse, but this was one of the most deliberate and most premeditated murders I have ever known in my service on the bench."

Odom stood quietly at the bar and showed no signs of emotion as sentence was pronounced.

## Georgia Communities Welcome Industry

GEORGIA manufacturers find that the communities in which they are located take a personal interest in their success. This friendly public sentiment is graphically described in the following statement from Mr. Forrest Addison, furniture manufacturer and Mayor of Flowery Branch, Georgia.

Georgia Railway and Power Co., Atlanta, Ga.

Gentlemen:

"I attribute my success as a manufacturer of furniture, to the availability of plenty of intelligent native white labor, favorable weather conditions, abundance of raw material supply, and to the encouragement of practically the whole community. I have shipped furniture to 42 states and to several foreign countries, in spite of the fact that furniture is a commodity that is subject to unusually heavy freight rate."

"Last year we changed from steam to electric power, and although about half our fuel was supplied by scraps and shavings from our plant, we find the electric current more than 12% cheaper than the steam boiler as a power producer."

"I am a Yankee from Maine, and the fact that I have several times been elected mayor, without any particular qualification for the office, should be positive proof that the old-time anti-northern sentiment has completely died out in the South."

"Considered from any angle, I am certain that the North Georgia highlands offer the greatest inducements obtainable by industries seeking new location."

## To Look Younger

follow this simple rule in skin care

By NORMA TALMADGE

Copyright 1926 By P. O. Beauty Features

By preserving youthful skin texture, it is making thousands look younger than their years

A WELL-KNOWN artist recently asked, "What's become of the 'middle-aged' woman; has she completely disappeared?"

What's really happened is this: women have found that looking their years is a needless folly. Thus nearly everyone stays young these days. The simple rule below has safeguarded natural complexion charm for more women than any other method known. Thousands employ it. Leading skin specialists urge it. Try it for one week. Let it prove its effects to you. Use the softening olive and palm latex of Palmolive Soap, used this way:

THE RULE—MAKE IT YOURS STARTING TODAY

Wash your face gently with soothing Palmolive Soap, massaging it softly into the skin. Rinse thoroughly, first with warm water, then with cold. If your skin is inclined to be dry, apply a touch of good cold cream—that is all.

Do this regularly, and particularly in the evening. Use powder and rouge, if you wish. But never leave them on overnight. They clog the pores, often enlarge them. Blackheads and disfigurements often follow. They must be washed away. Follow these rules day in and day out. Your skin will be soft and lovely—naturally colored and clear.

Do not use ordinary soaps in the treatment given above. Do not think any green soap, or represented as of palm and olive oils, is the same as Palmolive.

Remember that before Palmolive came, women were told, "use no soap on your faces." Soaps then were judged too harsh. Palmolive is a beauty soap made for one purpose only: to safeguard your complexion. 60 years of soap study stand behind it. Millions of pretty skins prove its effectiveness beyond all doubt.

BE SURE YOU GET THE REAL PALMOLIVE

It costs but 10c the cake! — so little that millions let it do for their bodies what it does for their faces. Obtain Palmolive today. Note what one week of its use brings you. The Palmolive Company (Del. Corp.), Chicago, Illinois.

## HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

IN 1810 A STRONG WAR PARTY HAD COME INTO POWER IN CONGRESS. IT WAS COMPOSED OF YOUNG REPUBLICANS CALLED "WAR HAWKS" AND WAS LED BY HENRY CLAY OF KENTUCKY AND JOHN C. CALHOUN OF SOUTH CAROLINA.

THE WAR HAWKS ACCUSED ENGLAND OF CAUSING ALL THE TROUBLE AND DECLARED THAT SINCE WE HAD WON OUR INDEPENDENCE ON LAND THE TIME HAD COME TO FIGHT FOR FREEDOM OF THE SEA.

THE WAVE OF ANGER CAUSED BY ENGLISH OUTRAGES AGAINST OUR SHIPS ON THE HIGH SEAS CONTINUED TO SWEEP THE COUNTRY.

PRESIDENT MADISON WAS RELUCTANT TO PLUNGE THE NATION INTO A CONFLICT BUT YIELDED TO THE DEMANDS OF THE WAR PARTY AND IN 1812 ISSUED A "WAR MESSAGE" TO CONGRESS.

## Madison's War Message. by J. CARROLL MANSFIELD

IN ASKING FOR WAR, MADISON CITED A LIST OF GRIEVANCES AGAINST GREAT BRITAIN, CHIEF OF WHICH WERE—

1. THE BRITISH ORDERS IN COUNCIL WHICH LAID UNREASONABLE RESTRICTIONS UPON NEUTRAL TRADE AND AUTHORIZED "ORGANIZED PLUNDERING" OF OUR MERCHANT SHIPS BY MEANS OF PRETENDED BLOCKADES.

2. THE KIDNAPING AND IMPRESSMENT OF AMERICAN SEAMEN ON THE HIGH SEAS BY THE BRITISH NAVY.

3. THE BELIEF THAT THE BRITISH HAD ARMED THE INDIANS OF THE NORTHWEST AND ENCOURAGED THEM TO ATTACK OUR FRONTIER SETTLERS.

4. IN CONGRESS THERE WAS MUCH HEATED DISCUSSION WHEN THE QUESTION OF WAR CAME UP FOR DEBATE.

SOON AFTERWARDS ENGLAND REVOKED THE "ORDERS IN COUNCIL," BUT IT WAS THEN TOO LATE. WAR WAS NOW INEVITABLE.

TOMORROW—THE UNITED STATES DECLARE WAR.

JEFFERSON LEAGUE  
FLAYS DRY LAW

Washington, June 23.—(P)—Federal prohibition was described by the Thomas Jefferson league, in a pamphlet issued today, as "but one of a number of actual or attempted assumptions by the federal government of powers that properly belong to the people of the states."

The pamphlet, addressed to the south and entitled "Common Sense and State Rights," disavows any intent to argue for or against prohibition "except in so far as it violates local option by applying federal compulsion." It sets out that no objection is made to prohibition within a state by the will of the people of the state. "If the southern people prove true to the faith of their fathers," the league's statement says, "they will not become a party to federal compulsion after the manner of the direct action abolitionists and of the force bill groups, which have sadly misrepresented the best thought of the north. Rather, they will join hands with their liberal northern competitors in a nation-wide effort to reestablish the principles of local self-government as practiced throughout the golden age of the republic under the leadership of the author of the Declaration of Independence and of the fathers of the constitution, or of their immediate successors."

Asserting that federal legislation "designed to override the wishes of the people," in some of the most populous states "is utterly destructive both to the spirit and form of the dual system of government," the pamphlet declares the 15th amendment as being acceptable to New England and enforceable there, while not enforceable in the south because not in accord with the 15th amendment. The 18th amendment, with its Volstead appendix, is as objectionable to the people of some of the states as the 15th amendment is objectionable to the people of other states," it is asserted.

TWO WOMEN  
FOUND HELP

By Reading Experiences  
of Other Women

Mrs. Nina Matteson, Box 206, Oxford, N. Y., writes:—"If it had not been for your medicine, I could not have done my work as it should have been done. Mother told me of Lydia E. Pinkham's Vegetable Compound, and I had read in different papers what it had done for different women."

She wanted me to try it, so my husband got me one bottle at first; then I took two others. . . . Now I am feeling quite strong again." Mrs. Ernest Tanguay of Adams, Mass., says she was ill for four years and could not sleep nights or go out on the street. She read about the Vegetable Compound and decided to try it. After taking eight bottles she was able to do all her work and go anywhere and is quite herself again.

This dependable Vegetable Compound is a household word in thousands of homes. The fourth generation is now learning the merit of Lydia E. Pinkham's Vegetable Compound. If this medicine has helped other women, why shouldn't it help you? At your druggist's.

FOUR BANDITS ROB  
FASHIONABLE CLUB;  
GET \$6,000 LOOT

Westbaden, June 23.—(P)—Hoosier-don's fashionable twin watering place was accosted this morning by a search for four robbers who shortly before midnight, held up the Indiana club, near here, and escaped with more than \$6,000 in jewels and cash. Torture methods were applied to two club attaches and five guests were robbed, including two women whose shoes and socks were forced from them. The quartet drove away in an automobile in the direction of Louisville, where police are holding three men as suspects.

The robbers, all unmasked, entered the club before guests had arrived and after binding Ed Palmer, manager, and Harry Lane, assistant manager, demanded the club's funds. When the two men refused to surrender the money, the robbers removed their victims' shoes and socks and forced them to walk through a pile of burning newspapers. Meanwhile one of the robbers looted \$400.

FAMED ACTRESS  
AGAIN INVOLVED  
IN MANTON CASE

New York, June 23.—(P)—Once discontinued by reconciliation, the Manton divorce case naming Marjorie Rambeau, actress, co-respondent, was revived today.

Alleging that she was duped into agreeing to discontinue the action last February, Mrs. Mable Manton, wife of William K. Manton, filed a motion in supreme court to restore the case to immediate trial.

Manton, employed by Miss Rambeau as a courier, was sued by his wife in January. The next month the case was tried, but while the jury was deliberating, the Mantons were reconciled after a conference with Supreme Court Judge Wasservogel.

The jury was dismissed and the Mantons left the courtroom together, while Miss Rambeau wished them "a future of blessed happiness."

Mrs. Manton's motion did not say in what manner she was deceived into agreeing to drop the case.

POLICE INVESTIGATE  
SLAYING OF MILLER

Jacksonville, Fla., June 23.—(P)—Jacksonville police today were investigating from two angles the slaying early today of Ernest F. Miller, Fulton fisherman, and the serious wounding of George Constantino, a waiter, by three unidentified white men.

The men were shot, it was said, as they were sitting in a restaurant, the trio of gunmen driving up to the place, alighting, entering the restaurant and began shooting and quickly disappearing into the darkness.

Miller, police, ascertained, was separated from his wife only a few days ago and this was the first angle of the investigation. It also was learned, police said, that a man known as a liquor dealer was thought to have been one of the gunmen. He was being sought.

Miller died at a local hospital shortly after the shooting. The other man was wounded in an arm.

Three shots were fired, one fatally wounding Miller, another striking Constantino and a third going wild.

Police said they thought Miller was the intended victim and that Constantino happened to be a mark for a stray bullet.

CHAMBER OF FLORIDA  
WARS ON LYNCHINGS

St. Petersburg, Fla., June 23.—Aroused by the recent epidemic of lynchings in Florida, the state chamber of commerce has gone on record with a declaration that this condition must not continue and has pledged to the governor its approval of his vigorous efforts to secure effective prosecution in the recent LaBelle lynching case and its willingness to cooperate to the fullest in the maintenance of law and order. The statement, which was adopted without a dissenting vote at the quarterly directors' meeting, is as follows:

"The Florida State Chamber of Commerce has heard with concern that already this year there have been four recorded lynchings in this state, and that men and women, white and black, have been taken from the protection of the law and brutally maimed by masked gangs."

"Feeling that this condition must not continue if Florida is to prosper as she deserves, the state chamber of commerce hereby respectfully thanks the governor for his quick and effective action in assuring a vigorous prosecution of those persons who recently lynched a man in LaBelle. Although there have been 143 recorded lynchings in Florida since 1900, this is the first to be followed by a vigorous prosecution of the offending mob."

"Again expressing its approval of the governor's action, the state chamber of commerce wishes to assure him of its continued willingness to do all in its power to create the proper regard for law and order."

BROSSARD SLATED  
FOR MEMBERSHIP  
ON TARIFF BODY

Washington, June 23.—(P)—Nomination of E. B. Brossard, of Utah, and Sherman J. Lowell, of New York, to be members of the tariff commission were sent to the senate today by President Coolidge.

Although Brossard was appointed to the commission a year ago to succeed Commissioner Culbert, present Minister to Rumania, his nomination, until today, had never been submitted to the senate. He has been serving under a recess appointment which expires with the adjournment of congress.

Lowell, whose home is in Fredonia, New York, is a farmer, and has been intimately associated with agriculture organizations. He was named to succeed Commissioner Baldwin, who recently resigned.

The nominations, coming in the midst of an investigation of the tariff commission by a special senate committee, served as a rebuff to opposition from democrats and progressive republicans, some of whom declared that Brossard's nomination would not be confirmed at this session and more information would have to be had on Mr. Lowell.

Five Reasons Why You Should Have Your Eyes Examined

A CERTAIN authority says that many people with poor vision are entirely unaware of their defect. The world they are accustomed to is a blurred and distorted world, and they are under the impression that it looks the same to everybody.

Most visual defects that are not hereditary are due to eyestrain, which results invariably when more is required of the eyes than should be reasonably demanded of them.

Can you afford not to be SURE about the condition of your eyes?

# The Law of the Talon

By Louis Tracy

INSTALLMENT XL

CONNINGTON TURNS UP AT INVERLOCHTIE.

Spot rose instantly on his hind legs, placed his left paw on Eileen's arm, carried his right paw across his breast, and barked.

But Eileen was recovering her wits. There was so much to say and so little time in which to say it. John's unexpected arrival by the train had upset such tentative plans as Betty and she had deemed feasible. Scores of eyes had witnessed their meeting. Scores of tongues would soon be canvassing it. Many Lansing had come in from Inverlochti in her own car to fetch her children and the governess. It was natural enough that Eileen should accompany her, and equally reasonable that Betty should remain at home, since six passengers, plus the chauffeur, was one beyond normal capacity. Eileen had ascertained already that "Mr. Pantom" had not received the letter awaiting him at the postoffice. Therefore, he was not yet in Mallaig. She would have contrived an excuse for a second inquiry. Her letter suggested that John should come on to Inverlochti that evening. Postmaster Macdonald would find him a room, and house his car, while the two girls would stroll out after dinner, and meet him beneath Ian's cliff.

Now there was no car, unless Ferguson, at the Inn, could bring him out in the one and only practicable flivver the village boasted. Eileen and John had their separate stories to tell. They were making heavy weather of it when Mary Lansing came with her brood, which she promptly shepherded in the direction of the waiting car. She might be trusted to realize that introductions were not the order of the day at that moment.

"Celeste has brought a wardrobe trunk," she said. "And Molla is sporting one also—her first. The car simply cannot hold us and the luggage—there's heaps more of it. So Robinson must make a second trip. I'll tell him to be here about six, and that he's to drop you at Macdonald's place. I'm sure if I wink hard at him he will not say a word, even to my husband, who, I imagine, does some winking in his turn."

So it was settled that way. John parted from Eileen five minutes after he had grasped her hand. It was a brief greeting after seven years of exile.

"So that is why you gave tongue, pup?"

But it sufficed. The heart, the brain, can far outpace the spoken word. They began by having unbounded confidence the one in the other. It would be strange, indeed, if measured speech should separate them again.

He stored his handbags with the Lansing pile, walked out when the car had gone and retrieved his letter. In addition to its instructions it contained one puzzling paragraph:

"I want to prepare you, John dear, for a question which I must put and you must answer. Are you innocent or guilty? Not until after I was wheeled into marrying Alistair was I told why you left the service. I suppose it is true—the actual verdict of the court-martial, I mean. But was it justified? If you say 'no,' I shall believe you against all the world; if 'yes'—well, I go my own way. I would not express my innermost thoughts thus openly if I had not seen what you wrote to your father, backed up, as it is, by your speedy response to my own and Betty's letters. Perhaps you may be forced to tell me that which it will nearly break my heart to know. In that case, if you would be kind, and that you have always been, you will not come to Inverlochti at all, but write me a little word of farewell, and, I might almost add, forgiveness, because, no matter what the first cause of our separation, you stood fast, while I seemed to waver."

"So that's the trouble, is it?" mused John, while he and Spot made for the local hotel bent on luncheon. "What the deuce am I to say? Can a man be guilty of a crime he did not know he was committing? Of course, that only makes out he was suffering from temporary insanity, a poor excuse for suicide. But should he put out of court the fairly definite opinions of such friends, old and new, as Frensham, Leslie and Furneaux, not to speak of Mr. Winter and Mr. Mountford? No. A thousand times 'No.' I've been all sorts of a fool not to believe more in myself. I stop that idiosyncrasy, straight off. As soon as I arrange things with Eileen I'll rush south, find that blighter, Connington, and crack his ribs until he blurts out the truth. Why in the world didn't I little word of farewell, and, I might almost add, forgiveness, because, no matter what the first cause of our separation, you stood fast, while I seemed to waver."

Spot, of course, was convinced of this already. Short of breaking loose from his master in the station, and sinking his teeth into some part of the anatomy of ex-Company Sergeant Major Ferdinand Connington, how could he have done more to announce the fellow's presence in Mallaig? Why, even that stupid half-breed, Mosquito Joe, would have pulled his gun at the second growl, if not at the first.

But Spot's intelligence was limited to his immediate environment. Even he could not guess that Connington was then bargaining for the use of Ferguson's car, and would be well on the way to Inverlochti before master and dog had decided what to eat.

For "Doped Walker" was momentarily in possession of his senses. He had enforced abstinence in the train by leaving his drug behind. In consequence he was nervous and irritable and ready to snarl at any one, but his brain was sufficiently clear that it should sense the far-reaching hazard of John Pantom's return to England, and above all, of this unforeseen visit to the west coast of Inverness. He took stock of the meeting in the station, and had seen in Eileen's eyes the look which women of her class give to one man only. That was illuminating, but quite surprising.

Before passing the ticket barrier he sought enlightenment from a porter, paying the way by a florin.

"You ledly?" said the man. "Yon's Mrs. Pantom, an' the body wi' the bairns is Lach' Lansing."

"Mrs. Pantom? Do you mean Mrs. John Pantom?"

"Hoots, mon, that's a queer thing ye've said. She's Mrs. Alistair Pantom—Miss Eileen Grant of Glen Inver that was—an', by the same token, I'm danged if there isn't Mr. John himself leadin' a brow dog. Weel, weel! Wunners'll never cease!"

A glance at the waiting car told more of the story. From a distance, Connington noted who went in it. Then he sought a car on his own account. It was high time he had a settlement with Alistair Pantom, and, if he played his cards well, this strange visit of Lord Oban's son to his old home might be all to the good. At any rate, the Honorable John was not going post haste to Inverlochti, and that was significant. Did John's cousin even know that he was in the north at all? Well, that point could be determined soon—almost as soon as Ferguson deposited the tale bearer at Alistair's door.

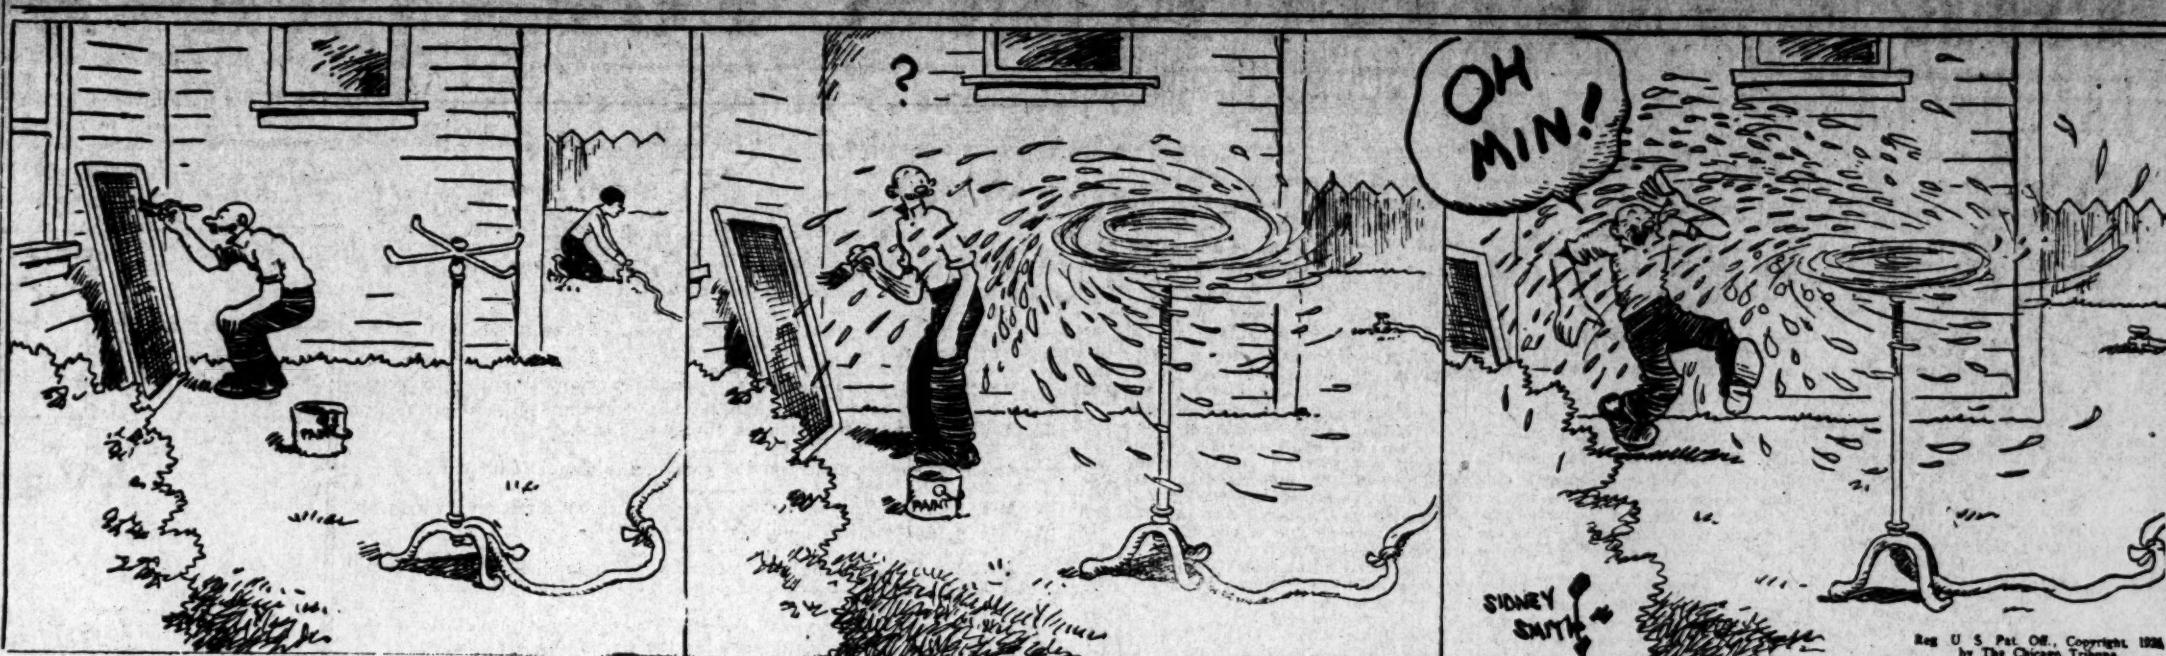

John was at luncheon, Spot aiding and abetting, when a telegraph messenger sought him. The boy brought a wire from Leslie. It ran: "Need hardly say I disapproved strongly. Even now advise instant return. Have telephoned F., who wishes me to tell you that Connington has left London for Mallaig, and will probably arrive before noon today."

"So that is why you gave tongue, pup? Great Scott! To think I'd turn a deaf ear after all that you and I have gone through together! Never again, believe me!"

### Late Georgia Crop Shows Improvement, However, According To Report.

Otherwise, however, the department of agriculture said today in its summary of conditions in southern states through Tuesday: "Conditions were generally favorable, with the prevailing moderate warmth and mostly light to moderate showers."

Truck crop were improved by rain and early potatoes are being dug. Tobacco was reported as "poor to only fair" with poor stands in South Carolina, but good and improved growth were noted in Tennessee and Kentucky. Sugar cane made rapid growth in Louisiana.

## TREND IS LOWER ON CURB MARKET

### New York, June 23.—(AP)—Selling orders were distributed over a broad list in today's curb market which drifted lower after an early period of irregularity. Net losses in the active issues ranged from 1 to 3 points, but independent strength was shown by a few industrials and public utilities.

Total sales of 265,000 shares were nearly 40,000 above those of yesterday. Oils failed to respond to bullish trade statistics, Humble and New Mexico and Arizona Land yielding a fractional recession.

Lehigh Valley Coal responded to the resumption of dividends by rallying over 2 points to 44. United Biscuit B jumped nearly 3 points to a new high at 14 1/2 on merger reports.

Moderate gains also were recorded by By-Product Coke, Johns-Manville, Richmond Radiator and U. S. Gypsum. Motors were heavy, Stutz falling back over 2 points to 24 1/2 and then rallying slightly, and Federal and Ford of Canada each dropping a point.

Freshman Radio, Goodyear Tire and Standard Publishing also lost a point or more. Public Utilities were mixed, strength of Electric Investors and Tampa Electric contrasting with the weakness of United Gas Improvement and American Light and Traction.

The weekly report of the weather bureau mentioned drawbacks, but on the whole, evidently was regarded as favorable by the market. A few more active in the early afternoon on a private report estimating the condition of the crop at 74.4 against 75.2 two weeks ago, and the reduction in acreage at only 1 per cent. compared with an estimate of 1.3 per cent. two weeks previously.

These figures were interpreted as pointing to a crop of 16,000,000 bales or 15,500,000 bales, with an allowance of 3 per cent. for abandoned acreage.

July eased off to 17.81 and December to 16.38 or 6 to 23 points lower, but the close was several points higher than the lowest on renewed covering. This may have been pointed to some extent by reports that American cotton was selling below a normal parity with East Indian, and that Japan was buying freely in the American markets for early new crop shipment.

There were reports also that ocean freight had occurred in various bales had been engaged for shipment from New York to Bombay, presumably of cotton to come from the south. Exports 5,986 bales, making 7,763,249 so far this season. Port receipts 7,271. U. S. port stocks 739,935.

## Gotham Cotton Market Shows More Irregularity

### cause sharp fluctuations either way. July at one time traded five points above the previous close and later 30 points below, closing finally 21 points net lower.

At the highest during the morning new crop months showed gains of 6 to 7 points owing to better cables than due. Later prices eased off on a very favorable weekly weather report and on a report by a private authority making the condition 77.4 and the indicated crop 15,500,000 bales.

At the lowest new crop positions were 16 to 19 points down from the highs. The market later rallied on reports of insect damage in the central belt. The close showed net losses of 1 to 21 points, the only decline of consequence being in July, the other months being only 1 to 3 points net down.

Liverpool came in better than due but first trades here were unchanged to 2 points up. Prices soon rallied, however, and July traded at 17.35. October at 16.18 and December at 16.14, or 5 to 7 points above Tuesday's close. These were the highs of the day. The market later declined 12 to 20 points on the good weekly weather report but rallied some around mid-session.

After mid-session, prices declined sharply on a bearish private condition reported and on some July liquidation. July trading down to 17.00. October to 16.02 and December 15.95 or 16 to 35 points down from the highs, but rallied 9 to 10 points on damage reports. Exports for the day totalled 5,986 bales.

**SPOTS IN NEW ORLEANS.**  
New Orleans, June 23.—(AP)—Spot cotton closed quiet and steady, 22 points down. Sales 1,909; low middling 14.10; middling 17.35; good middling 18.00; receipts 3,817; stock 223,733.

**AMERICAN BANKERS PLAN TO FINANCE BRAZILIAN LOAN**  
New York, June 23.—(AP)—As a sequel to Brazil's withdrawal from the League of Nations council a \$25,000,000 loan, originally scheduled for flotation in London, has been transferred to American banking interests and will be offered to investors here by Dillon, Read & Co. Thursday.

The new issue, consisting of 30-year, 6 1/2 per cent bonds, supplements a \$35,000,000 offering made by a Dillon, Read syndicate last month and will be divided equally between the United States and Great Britain. With an

increase in the American portion to \$25,000,000 it developed that the Rothschild banking firm in London, which has represented Brazil, had declined to participate in the loan.

## ONE DEAD 9 HURT AS RAIN STRIKES MOLTEN IRON POT

### Wilmington, Del., June 23.—(AP)—Rain, seeping through the roof of the Lobell Car Wheel company's plant here late today, into a four ton ladle, filled with molten iron, caused an explosion which resulted in the death of one man and the injury of nine others. Part of the building was demolished by the blast and eight fire companies were required to extinguish the fire which followed.

Henry Ralston, 65, was literally cooked by the shower of white hot metal that struck him. He died shortly after reaching a hospital. John Shepherd, 60, and Stephen McNeust, 57, were seriously burned. Two other workmen are under treatment in hospitals.

All the men were working near the huge ladle, which had just been filled with molten metal when the rainwater leaked through the roof and splashed into the mass. A deafening roar followed, punctuated by the screams of the workers as they were splattered with the hot iron. Damage to the plant was placed at more than \$10,000.

**Dry Goods.**  
New York, June 23.—Cotton goods trading continued quiet today with prices rather steady. Some cotton specialties were received and transmitted to mills as usual for low agents to accept without comment.

Silk and cotton yarn goods were in demand. Rayon goods were in demand. Prices for a cut varying from 15 to 18 per cent.

Durables were unchanged. Silks held steady with little declining to higher prices for anything save small lots. Worsted dress goods are being liquidated steadily, especially those made for spring and early fall.

Coal restrictions have caused a contraction of output in linen mills in Belfast.

Increase in the American portion to \$25,000,000 it developed that the Rothschild banking firm in London, which has represented Brazil, had declined to participate in the loan.
